Small Boys Dig Up Loot of Robbers in South New Jersey

Camden, N. J., March 31. (A)-Two little boys are disillusioned today—the buried treasure they found turned out to be the loot of some modern day robbers.

Frederick Dawn, seven, and Frank Anton, eight, went on a treasure hunt yesterday along Newton Creek. Digging through some metal boxes, they came on a number of watches, rings, a gun, bullets and a fireman's badge.

Some of the "treasure" they parcelled out to playmates, and the rest they took home. Frank's mother, Mrs. Catherine Anton, became curious when she saw her son twirling an old fashioned watch on a heavy gold chain.

An investigation by police disclosed the "treasure" was merely buried loot from a half dozen robberies in Southern New Jersey. Now the problem is to find the

The Washington Merry-Go-Round

BY DREW PEARSON

Washington .- One of the few pieces of legislation passed to date by the 81st congress was a bill just about doubling the

president's salary and housekeeping allowance. Meanwhile, American iplomats, stationed on he first line of defense, are still hopefully waiting for their promised but pitifully small increase of \$330 a year.

This increase was tied to the bill boosting the president's pay check. Pearson For last year all other

federal employees had been given a raisebut not U. S. diplomatic personnel abroad. Some of them, beginning on a salary as low as \$2,000, can barely make both ends meet, and are supposed to keep up proper appearances as representatives of the great United States.

U. S. foreign service officials are stationed from Sinkiang to Tasmania, from Oslo to Durban, where the 40-hour week enjoyed by other officials is as rare as a smile on the face of John L. Lewis.

A bulletin recently sent to these employees quoted Senator Cabot Lodge of Massachusetts as saying: "Americans in the foreign service need to have great pride in their country. And it should be a pride that shows through, that reflects the true worth of the American way of life.'

However, the president's salary boost was passed by congress while the struggling, run-of-the-mine U. S. diplomat abroad got none. Furthermore, the ritzy boys with drag at the top came out fairly well. Their allowances weren't cut. But because the budget bureau sliced the state department even below last year, many of the poorly paid, struggling young diplomats at the bottom had \$100 cut off their living and rental allowances.

To them the Truman "fair deal" has turned out to be the "raw deal." For, while we spend billions on the European recovery program, we nurse nickels on the front line of the American program for peace.

Note-One reason the American diplomatic service has been so notoriously inept s that it has been so underpaid. Only the wealthy men could afford to become career diplomats, and wealth does not necessarily mean brains.

JIM FORRESTAL HAS LAST SHOT

Tries To Stop Feuding Of Armed Services

By ROBERT RUARK

New York.—All admirers of the hair-trigger action for which America is noted must delight in the last gasp of the dying Gaul, Jim Forrestal, as he bows out of the job of secretary of defense. This is the sharp order to the fighting factions in army, navy and air force to clear all future stories on new gimmicks in death - dealing

through the headman's hands. This timely gesture, shaped to restrain the feudin' services from competition for newspaper space, has only taken some three years to flower - during which time Mr Forrestal was always ostensible boss of everything in the war

All this time, the competing forces have phenagled fresh wrinkles in planes and guns and germs and rockets and ships and stuff to rain down credit on own individual heads, and to shove a scornful finger at the opposition.
